

ULTIMATE Iguana T-Shirt

Many species on the earth are disappearing at an alarming rate—and so is our iguana T-shirt.

We have offered this shirt for many, many years, and now we are getting close to running out of them. It has turned into a cult classic, found in almost every state in the U.S.A. and almost every country in the world. If you want one of these stunning and rare T-shirts, now is the time to order.

Order today so you won't be sorry when they're completely gone. When the current supply of shirts is gone, no more of this design will ever be made.

ABOUT THE SHIRT

The same person who did the science illustrations in this book (he taught Science Illustration at U.C. Santa Cruz) also did the pen-and-ink drawing for the iguana on the back of this T-shirt and its famous one-of-a-kind tail design—which starts on the front of the shirt, wraps under the armpit, and then connects with the big iguana on the back of the shirt.

The wrapping of the tail was the author's idea. He wanted something totally original. He picked the four colors for the iguana and specified the special details needed so the iguana would look like it was actually digging its claws into the T-shirt on the back. Many screen shops said they could make the shirt, but in reality only one was actually able to make the complicated tail wrap around the shirt. Just one shop!

We chose Oneita brand T-shirts (Power-T) for their heavyweight cloth and strong necks—these necks will last for years without stretching out of shape. It was costly to make these shirts, but we've kept the price fair so more iguana owners could get them. The shirt hasn't increased in price in all these years.

We have been offering this T-shirt for a long time, and now we are down to just a few boxes of shirts in the warehouse. When we run out of the current supply they will be gone ... that means gone ... FOREVER. Just like the paperback version of our book.

Now is your chance to be one of the lucky people to get the last remaining shirts. The photographs show the design of this one-of-a-kind ULTIMATE Iguana T-shirt, but here are some words to give you more detail:

- A very detailed, realistic pen-and-ink drawing of a huge iguana takes up most of the back of the shirt. The iguana has four colors: tan, lime green, dark green, and grey. The lettering on the front of the shirt is done in a burgundy color.
- The eye on the iguana is so real, people will swear that it is looking at them.
- The iguana is so detailed you can actually see individual scales, spines, and color patterns. For added realism, the iguana's claws were drawn to look like they are clawing into the shirt.
- The lizard is so big that its tail has to wrap around the side of the shirt and ends curled up on the front. The continuous tail design makes people's heads turn!

The white, pre-shrunk 100% cotton shirt is available **ONLY** in Large and X-Large sizes. This shirt is top-quality in every aspect including heavyweight material, reinforced shoulder stitching, superb color printing—and it is made in the U.S.A.
